About the cover:

Jingle the calf: Photo contest submission by Ashley Knapton for the Farm Pride category.

Although for some, the last year was memorable for the wrong reasons due to COVID-19 and its consequences, 2020 is now behind us, and 2021 brings along a year full of hope. Drought conditions that affected some regions of Canada brought their share of consequences and financial losses for many producers. However, each year brings its own set of challenges, and as the saying goes: "What does not kill you makes you stronger." These challenges help us grow, discover new talents and move forward both on a personal and professional level. I wish you a marvellous 2021, a year where you can carry out your greatest projects.

There is an ever-growing demand for our breed; we must therefore seize this opportunity and offer a profitable and functional cow to these new breeders. For too long Brown calves have had a poor image and hindered the ambition of new breeders. However, automatic calf feeders have become increasingly popular. They allow the calves to suck instead of having to drink from a bucket as in the past. They are a game changer for calf rearing and yield better results when feeding their Brown Swiss calves, without trying the breeders' patience.

We must now tackle one of the biggest issues in North America: Daughter Fertility. In

recent years, some bulls had a negative breeding value for this trait, but were quite popular as they had a high index for milk production. However, the basis of profitability for a dairy farm is to have animals with excellent reproduction. It is therefore important that we, Canadian breeders, act and focus on improving the fertility of our breed by buying semen from an AI centre and selecting animals, both female and male, from our herd. The future of our breed and of its genetics is in our hands.

–Dave Rousseau

News from Quebec

On December 5, 2020, around thirty people attended the Brown Swiss Québec Club Annual General Meeting, held virtually due to this year's unusual circumstances.

The financial year of the Association ended with a profit of \$13,071.

Four seats were up for election this year; Mr. Joé Desjardins in district #2, Mr. Sylvain Boulanger in district #4, Mrs. Chantal Leclerc in district #6 and Mrs. Ariane Maltais, as substitute. Mr. Sylvain Boulanger and Mrs. Ariane Maltais were reappointed for another two-year term. Mrs. Cynthia Fillion from Ferme Goulaise was elected for district #2, and Mrs. Katherine Deschênes from Ferme Deschênoise was elected for district #6.

We are pleased to welcome two new Directors on the Board, but we are also sad to say goodbye to Mr. Joé Desjardins et Mrs. Chantal Leclerc. We thank them for their impressive contributions to the Brown Swiss breed and for all their work on the board.

Following the AGM, our Club's Board of Directors met to elect the Executive for the new year. Mr. Dave Labrie was elected as President, Mr. Sylvain Boulanger as 1st V.-P. and Mr. Renald Dumas as 2nd V.-P.

In addition to Best Producers 2019-2020, the Club launched a new competition this year, the Brown Swiss Passion Competition.

A Selection Committee chose the three finalists based on their pedigree, their accomplishments, their progeny and for their potential wow factor; the members were then asked to vote for their favorite cow.

NEWS FROM QUEBEC

The Quebec members elected Goulaise Jongleur Limoche, owned by Ferme Goulaise inc. as the winner of the first edition.

L'équilibre entre production et conformation

Limoche provient d'une famille équilibrée et dotée d'une génétique plus que constante (EX, TB-87, EX, TB-86, EX, EX-91), mais cela ne se limite pas à la conformation. En effet, sa 5^e mère, Goulaise Marcie a une production à vie de plus de 100 000 kg et certaines de ses autres mères (Épinoche, Picolinoche et Marcie) ont obtenu le titre de Grande Championne à Expo Québec. Finalement, il ne faut pas oublier les caractères de santé (longévité des vaches ayant entre 5 et 15 lactations ainsi que les caractères de santé excellente) qui se transmettent de génération en génération.

En sept lactations, Limoche a produit 67 468 kg de lait à 4,3 % de gras et 3,5 % de protéine pour une MRC combinée de 672. Elle a quatre filles classifiées, dont trois TB et une B, qui possèdent une moyenne de production équivalant à l'âge adulte de 10 129 kg de lait à 4,5 % de gras et 3,4 % de protéine.

Deux descendantes populaires de Limoche :

- **Goulaise Payssli Excellence, TB-87 (VÉEG 1341)**, qui a produit 21 265 kg de lait (4,2 % G et 3,3 % P) avec une MCR combinée de 617 en trois lactations.
- **Goulaise Gusti Éclipse, TB-86 (VÉEG 1057)**, qui est présentement en deuxième lactation et possède une projection à 9 626 kg de lait (4,0 % G et 3,4 % P) pour une MRC combinée de 804.

Cette vache est l'une des raisons de notre passion pour la Brown Swiss, elle est le résultat de plusieurs croisements avec des vaches tout aussi exceptionnelles!

Goulaise Jongleur *Limoche*
EX-91 SE

Propriété de Ferme Goulaise inc.

The right balance between production and type

Limoche comes from a balanced family with a more than constant genetics (EX, VG-87, EX, VG-86, EX, EX-91), and goes well beyond type. Indeed, her 5th dam, Goulaise Marcie, has a lifetime production above 100,000 kg and some of her other dams (Épinoche, Picolinoche and Marcie) won the Grand Champion title at the Expo Québec Show. Finally, we must not forget health traits (longevity of cows between 5 and 15 lactations, as well as excellent health traits) that are passed on from one generation to the next.

Here are Limoche's accomplishments over seven lactations: 67,468 kg – 4.3 % F – 3.5 % P – 672 combined BCA; she has four registered daughters, including three VG and one G, that have a production average equivalent to an adult production of 10,129 kg milk with 4.5 % F and 3.4 % P.

Two popular daughters of Limoche:

- **Goulaise Payssli Excellence, VG-87 (GEBV 1,341)**, with a production of 21,265 kg Milk (4.2 % F and 3.3 % P) with a combined BCA of 617 over three lactations.
- **Goulaise Gusti Éclipse, VG-86 (GEBV 1,057)**, currently in her second lactation with a projected production of 9,626 kg Milk (4.0 % F and 3.4 % P) with a combined BCA of 804.

This cow is one of the reasons we are so passionate about the Brown Swiss breed. She is the result of several breedings with exceptional cows!

And the 2nd edition of the Coupe Brown Swiss was a success with 41 cows registered.

Coupe Brown Swiss: 2nd Edition

1st lactation

1. ROWN HEAVEN BIVER FRENCHKISS * - Ferme Brown Heaven
2. BROWN HEAVEN CADENCE FINE - Ferme Brown Heaven

MESSAGE FROM ALBERTA & ONTARIO

Greetings to everyone. From Alberta

Depending on the printing date of this Newsletter, we hope you all will have, or have had, a Merry Christmas despite the many restrictions

imposed due to Covid 19. Surely, with the arrival of the vaccine, we all will get back to our normal lives as before Covid and that we can strike masks off our accessory list and enjoy the smiles of our contacts again.

We hope that all of you are in good health now and throughout 2021. Happy New Year.

Sincerely,

Verena Peden
Secretary-Manager of the Alberta
Braunvieh Association

Greetings to everyone. From Ontario

Hello Brown Swiss breeders and friends. We have been through a challenging year but I hope we are all staying safe and healthy. 2021 looks to be difficult as well. We can look forward to getting together in the future, while doing the best we can.

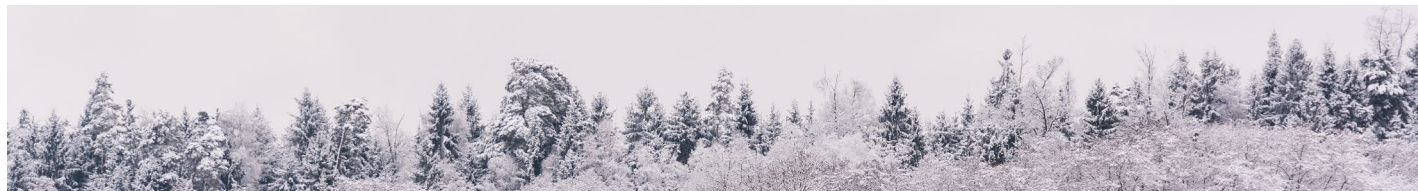

We were unable to host the C.B.S.B.A. Annual General Meeting last spring or our own Annual Meeting in November due to Covid 19. I would like to congratulate our breeders for continuing to work hard to improve the Brown Swiss Breed.

Here are our Production Award winners based on 2019 Dairy Herd Improvement records:

Highest B.C.A. 2019 10 – 25 Completed Records	Highest B.C.A. 2019 Over 25 Completed Records	Most Improved B.C.A. 2019 10 – 25 Completed Records	Most Improved B.C.A. 2019 Over 25 Completed Records

Best Wishes to Everyone!

NATIONAL AGM – PREPARATION NOTICE

As our country battles through a large second wave of virus infections during this pandemic and anxiously awaiting the vaccine rollout, the Board is prepared to move forward with completing either a virtual or an in-person AGM.

The Board's goal is to have the best possible format, which ensures the greatest participation. To help your Board prepare and make the best possible decision for the type of AGM we can have, please answer the following questions.

Depending on the results of this poll – the Board will prepare accordingly.

What is your preference?	<input type="checkbox"/> In Person	<input type="checkbox"/> Virtual		
If you selected virtual:				
Do you have the necessary computer equipment and reliable internet?	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
Are you confident in your computer skills to participate?	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
Are you able and willing to participate at the next AGM?	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
If you selected In Person:				
Do you want to wait for pandemic to be declared over?	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
Would you want all participants to be vaccinated or provide a negative test result?	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
Which season is preferable for the next AGM?	<input type="checkbox"/> Spring	<input type="checkbox"/> Summer	<input type="checkbox"/> Fall	<input type="checkbox"/> Winter

How to submit the results of you poll:

Today's technology is amazing and diverse. If you have a mobile phone, you can take a picture of your completed poll and email it to me at dcaron@holstein.ca.

If you have a scanner/printer, you can scan your completed poll and email it to me at dcaron@holstein.ca. You can complete the poll and **mail to 20 Corporate Place, Brantford, Ontario N3T 5R4** or **fax to 519-756-3502**.

We wish to thank the Canadian Brown Swiss & Braunvieh Association for mailing our catalogs all these years. As of December 2020, members can now get our catalog from your local Semex representative. Of course, you can also visit **www.BrownSwiss.com** to view the catalog online.

The New Generation stable of bulls continues to lead the industry. We currently offer breed leading bulls for PPR, milk, fat, protein, SCS and type. Whatever your breeding needs, we have a bull for you. We also offer Preferred Sex powered by the state of the art Intelligen process. We look forward to working with Semex to efficiently deliver and meet your semen needs.

Questions, feel free to call **920-568-0554** or email **dan@brownswiss.com** and we will talk cows!

Dan Gilbert

CLASSIFICATION SCHEDULE NOTICE

Holstein Canada maintains its Essential Status for on-farm services. However, as the COVID-19 pandemic is an ever-evolving situation, we will continue to follow and adhere to provincial and regional guidelines and restrictions.

As such, the Classification schedule may fluctuate. Please go to the Classification Schedule on the Holstein Canada website for the most up-to-date information related to our Field schedules. If you have any questions, please email **Classification@Holstein.ca**.

Three Newly Proven Sires Attract Attention in the Brown Swiss Breed

Three sires receive their first official LPI and penetrate the ranks among the Top 15 bulls of the breed. The highest of these is La Rainbow Bfly Dynamite ETV at #8 LPI and the new #1 for Conformation at +13. Dynamite is the highest of the first two Cadence sons proven in Canada and his dam is La Rainbow Bfly Delight ET, by Durham. The two other high-ranking newcomers this round are Assay (Anibal x Payssli) at #14 LPI (#6 Milk, #6 Protein), and Passat (Payssli x Glenn) immediately behind in #15 LPI position. The breed leading trio remains undisturbed with Huray at the helm at #1 LPI (#3 Milk, #3 Fat, #2 Protein), followed by Lime Rock Seasidebloom at #2 LPI (#2 Milk, #7 Fat, #3 Protein), and Lime Rock Toledo in #3 LPI position (#4 Fat, tied #4 Protein). Scherma Blooming River climbs the LPI list this round to grab #4 spot (tied #8 Fat, #9 Protein), forcing Shiloh Brookings Cadence ET down a notch to #5 LPI (#7 Milk, tied #4 Protein). Also of interest is the first official Canadian progeny proof for production of Vassli (Vasir x Hussli, born in Germany), who becomes the new breed leader for Milk, Fat and Protein yields.

There are also three newly indexed cows that attract attention as they penetrate the Top 10 GLPI list. The highest of these is Gubelman Biver Katniss-ET (dam is Gubelman Bookings Katie), who makes an outstanding debut at #2 GLPI (tied #4 Conformation), and is sandwiched between the reigning Gubelman Juhus Crystal in #1 GLPI position (#3 Fat, #2 Protein) and Gubelman Biver Kendra at #3 GLPI, who is a granddaughter of Katie and daughter of Gubelman Egal Katrina. Cynsyl Vassli Champagne is the second highest new cow this December arriving at #6 GLPI (#1 Milk, #6 Fat, dam is Cynsyl Atom Chatrelle), while Gubelman Cadence Dilana is the third highest that also makes the Top 10 rankings at #9 GLPI (#3 Milk, tied #9 Fat, #3 Protein, dam is Gubelman Huray Delinda). Dilana's maternal sister, Gubelman Biver Diana, stays firm at #4 GLPI (tied #1 Fat), and is now ahead of Nor Bella Paul Eve at #5 GLPI (tied #1 Fat, tied #4 Conformation).

THE END OF A SWISS DREAM

Ever since I was a child, I have worked with Brown Swiss animals; first in Switzerland, then in Manitoba, Canada, since 1981.

We did not have an easy start in Canada. My wife and I did not have much money, but with a lot of willpower and hard work, we have moved ahead quite quickly.

At that time, it was very hard to find Brown Swiss animals in Western Canada. But in 1986, the Buyout Program that was implemented in the US gave us the opportunity to buy high-quality animals there. I travelled extensively to Arkansas, Iowa, Wisconsin, Minnesota, etc. and brought back nearly 100 animals to our farm.

That is when I was able to build a high-quality herd. Starting in the early 90s and for over two decades, Swiss Dream was consistently ranked among the top three (3) Production herds in Canada.

In 1993, I managed to rank 1st Production herd, and I was very proud to have achieved the first goal I had set for myself. But a few months later, I was wondering what my next goal would be. It was then that I decided to focus on show animals and, to this date, I am still in love with those beautiful cows.

Longevity and conformation of the breed were very important to me. Swiss Dream produced a dozen cows with a lifetime milk production above 100,000 litres and more than 50 EX cows.

Since the early 90s, I have also had other responsibilities that were very important to me. For fifteen years, I sat on the board as a national director representing Manitoba, and I had the honour of being appointed Vice-President and President. Again today, I serve as national director representing Manitoba.

I was also a representative of Canada at several World Conventions (USA, Brazil, Germany, Italy, France and Switzerland).

I was honoured to judge shows in Quebec and in France, including the 2001 European Championship in Paris. At the 2000 World Dairy Expo in Madison, I met some managers and breeders of the French Brown Swiss Association with whom I stayed in contact for many years. Those contacts led to several imports and exports of semen and embryos!

In the 90s, we saw an increased demand for Brown Swiss animals in Manitoba. There were several new breeders and it was rather difficult for them to find animals. Therefore, I tried to help them by making a few trips to the US and, thanks to a great network here in Canada (thank you, Alain Préfontaine and Bruce Mason), I was able to help about 10 breeders meet their needs and start their Brown Swiss herds.

Each year, we would raise 15 to 20 bulls for natural service, especially for Holstein herds; three bulls were bought by AI centres.

For almost 25 years, we participated in shows across Canada as well as the WDE in Madison with some success.

Swiss Dream's biggest success was somewhat of a curved ball! Dave Rousseau (currently President of the National Brown Swiss Association) spent three (3) summers on my farm as an intern. I immediately saw his passion for the breed. I saw in him that he could do great things with our breed. He chose a calf that he liked in the herd and with which he could start a great show herd. This calf was Swiss Dream Agenda Faith, dam of Brown Heaven Glenn Fantasy who won the Grand Champion title in Madison, twice! What an exceptional

work Dave and Josée did developing this lineage.

Our 400 hectares of cereals and forages and 220 animals kept me very busy at the farm and I did not have time to properly get my animals ready for the shows. Therefore, during the summer, I worked with an intern and my wife.

The Swiss Dream herd is currently for sale. Most of the lactating cows have already been sold to breeders in Quebec and Manitoba; the youngest animals are still at the farm and will be sold next year.

Three years ago, after having retired for 12 years, I resumed showing Brown Swiss animals in partnership with two prominent breeders: Laurie & Donna Harp in Manitoba, and Dave & Josée in Quebec. My new prefix with my partner Donna Harp is: Tailormade!

We have had a promising start; our first two cows were classified EX-91 and EX-92 at their third calving, and three 2-yr olds were classified VG-88, VG-87 and VG-86. In 2018, we have had our first win with Blessing Win V Osborne ET VG-87 2-yr old who was named Junior Champion at Minneapolis, finished 3rd at the WDE in Madison and was Honorable Mention All-American & All-Canadian in 2018.

I wish to all Brown Swiss breeders in Canada great success with those beautiful and docile animals. Wishing you all health and a Happy Holiday Season. Be careful with the little viruses going around.

—Fred Mathys

BRAUNVIEH DOORS, ALWAYS OPEN

VISIT BRAUNVIEH COWS IN EAST CENTRAL SASKATCHEWAN

Nestled among the Canadian prairies in east central Saskatchewan is Whitesand Creek Farm. This intensive management farm operation is home to a growing herd of Original Braunvieh cattle. One of the farm's deliberate goals aims to maintain the genetic integrity of the breed in order to showcase the many desirable characteristics of this ancient breed.

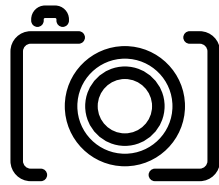

Beginning with the Original Braunvieh's environmental adaptability, these cattle thrive in the temperature swings typical of the prairie climate. Set on stout legs and feet with a boxy frame, their dual purpose as meat and milk cattle, provides producers with an ideal combination. Rich and plentiful milk production meets the demand for household needs and assures the breed's claim to fame by many commercial cattle producers as "performance builders." Calving ease with excellent maternal instincts, Original Braunvieh uphold a high standard for birth and weaning weights that translates into quality meat with excellent marbling.

Whitesand Creek Farm is founded on principles that include the ethical treatment of animals; environmental stewardship; following organic standards; and offering discerning consumers with one of the best options for the intensive beef flavor and quality that comes from grass fed cattle. Aligned with these values, Original Braunvieh cattle are the perfect breed choice due in part to their exceptional feed efficiency and handling ease.

When selecting cattle to establish Whitesand Creek Farm, the Prokopetz's followed the lead of other Original Braunvieh breeders who would attest to the wide range of beneficial characteristics. The Prokopetz's experience of the accuracy of the literature describing the breed is summed up with two words, "exceeds expectations".

If you are ever in the neighborhood, forty kilometers northeast of Yorkton, Saskatchewan, stop by Whitesand Creek Farm for a visit. Or, look them up under the name Whitesand Creek Farm on Facebook and by email at whitesandcreekfarm@gmail.com.

MESSAGE FROM JANINE

Hello!

Happy New Year! I cannot believe I am saying that after a very unusual 2020 year! In some ways it seems like 2020 was an incredibly long year and in other ways, it just flew by!

In Ontario, we are currently in another lockdown, which means I am still mostly working from home. This adds an extra challenge to getting certain tasks done – such as mailing, but with some adaptation, I am staying on top of things. The first week of January, I completed the membership renewals and you should have received it the mail recently.

I continue to do registrations, transfers and even take your calls remotely, so please do not hesitate to contact me with any questions. If you have been procrastinating on your registrations and are looking for some help to get caught up, let me know!

All the best!

Janine Eygenraam,
Registrar

MESSAGE FROM DONALD

When the ball fell on New Year's, we all bid a fond farewell to 2020 and its negative pandemic energy. With vaccines on the way, the year 2021 will bring a tide of positivity.

Many Associations and Clubs were unsure of what steps to take last year, and our Association was no exception. None of us were around in 1918 during the Spanish Flu or 1929 during the Great Depression, the last times events of this magnitude happened in Canada. Very few people remembered the lessons of the past and how people handled the challenge of operating an Association during a pandemic. Now that we are almost over the hump with this virus, let us look forward to challenges ahead.

The World Brown Swiss Congress pushed their event to September 26 - 30, 2021, in conjunction with World Dairy Expo. The way the U.S. and Canadian health officials are planning vaccinations, personally, I feel there is a high degree of confidence the Congress happens. Our Board will be drafting up plans to see how we can represent Canadian Brown Swiss on the world stage.

One of our more immediate challenges is holding an AGM. As a smaller Association, we adopted a 'wait and see' approach this past year: while we waited, we watched how other organizations completed their AGMs and Club meetings. Personally, there were many hours spent on video chats through Zoom, Skype or Teams and participating in various meetings. Some meetings were highly successful and some were made difficult due technical glitches. So, before the Board decides on the next best way forward for our AGM, I would like to remind all members of our duties.

Breed associations are expected to operate in a democratic fashion. The Animal Pedigree Act establishes minimum guidelines for creating by-laws, which will promote a democratic process.

The dictionary defines "democracy" as "a form of governance in which political power resides in all the people and is exercised by them directly or indirectly through elected representatives." It is a system in which the will of the majority must be carried out, but the minority must also be heard and its rights protected. To achieve this the membership must be well informed, motivated, dedicated to a common goal, and acting with good intent. An effective democratic process also requires participation.

Since not many of us were around in 1918 or 1929, we all know they wrote many letters to their elected officials to have their voices heard. Let us learn from our ancestors and start this process back up. While I do not expect handwritten letters, send me an email at dcaron@holstein.ca or a text at 226-401-8305 with your thoughts about the Association. We want to hear from you. Tell us what you think the Association should do.

Thank you to those who submitted photos for the contest. This was a fun contest and I hope everyone participates in the voting.

Thank you to Brown Swiss clubs in Quebec, Ontario, Manitoba and Braunvieh in Alberta for their patience and support in 2020.

Wishing everyone Health and Happiness for 2021.

Donald Caron,
Secretary Manager
