### About the cover:

This 6-year old girl Shaely convinced her mother Sarah to go buy a Braunvieh. Shaely loves bovines and the Braunvieh in particular. During a visit last June, Shaely showed absolutely no fear and was right in with our friendly bunch and they licked her hair. She loved it! Mom ended up buying a cow with a calf at side. The calf being a steer, was one of the two for the Ft. Saskatchewan 4-H Club and was to be shown by Shaely's older brother Jaxin - of course, because of the pandemic, the show was cancelled.

## MESSAGE FROM OUR PRESIDENT

The first half of 2020 was a year to forget for many. The cancellation of several social and agricultural events across Canada confined us to our barns. We had to postpone our Annual General Meeting which should have been held in Ontario; it will be resumed in 2021. In addition, all of the exhibitions allowing us to promote our breed have been canceled. But, through what appears to be only negative, much of the positive is worth highlighting.

First, 2020 is the year of the Mc Connell family who reside in Kincardine, Ontario. It is therefore their herd, known by the prefix Nor Bella, which has been recognized as a Master Breeder herd with our association. This herd is one of the oldest in our country and has stood out in many ways for the quality of its genetics over

the years. The Mc Connells have to their credit several production records at the breed level, including those of Nor Bella Blend Sara, who is unbeatable in many places. Animals with the Nor Bella prefix have also won dozens of All-Canadian awards over the years, while accumulating Grand Championship rosettes and banners in shows of all calibers. And, finally, the Mc Connell family herd has an exceptional conformation. It is the herd that has raised the most cows reaching the EX-95 score in the country.

It is also interesting to note how our Canadian genetics have improved over the past few years and are starting to take their place on the world stage. More and more Canadian bulls are present in insemination centers and each stand out in their own

way, both by being leaders in the LPI level and by being at the top of the conformation lists.

So be proud of your breeding of brown cows, they have their place more than ever in Canadian dairy herds and those around the world.

Dave Rousseau

Fall 2020

# COUPE BROWN SWISS VIRTUELLE

The goal of this contest is to  
promote Brown Swiss cows in  
Quebec:

This is an opportunity to showcase the best  
animals in your herd in their natural environment,  
without the costs associated with shows.

The judge will make virtual visits to the breeders  
who have previously registered their subjects to judge  
them in their environment. For breeders who do not  
have a connection  
Internet in their barn, there will be the possibility  
to send videos to the judge. More details to come  
during the summer.

Registration cost:  
\$ 15 for the 2 first registrations and  
\$ 10 for additional registrations.  
The breeder must be a member of the association  
The animal must be the property of the breeder

## Classes

- 1<sup>st</sup> lactation
- 2<sup>nd</sup> lactation
- 3<sup>rd</sup> lactation
- 4<sup>th</sup> lactation
- Breeder's herd  
(3 cows)

\* Honorable mention to the best Bred-Owner  
as well as the best producer in each class.

Follow us on  | Club Brown Swiss Québec for more information !

## MESSAGE FROM ALBERTA

## Greetings to everyone, from Alberta

How are all of you coping in COVID-19 times? How lucky we all are to be in a relatively safe environment on the farms compared to City living; however, we too are impacted by this dreadful pandemic in negative ways.

First, I had been so looking forward in joining Ian to travel to the 2020 Annual General Meeting, which, unfortunately, had to be cancelled. What a "bummer". This was the first time in many years that I had the opportunity to do so. We had arranged for reliable help and everything looked great. Our tickets were paid for and waiting in our desk drawer to be used. I was especially excited about the fact that the Dairy Expo was going to be held just before and we wanted to attend it as well. In addition, it would have meant a lot to me to meet all of you scheduled to be at this meeting. So sorry, it did not materialize.

But the missed meeting was not the only disappointment. All 4-H Club events also were forced to cancel. We had seen some of the Braunvieh calves that were going to be shown and the kids, as usual, had done a great deal of work with their beloved calves and they were truly disappointed at not having the chance to show off their projects. At least, the clubs' leaders were right on the mark with getting action going to have the calves pre-sold for May, so that the 4-Hers were getting paid for their efforts in raising great beef. Pretty lucky for them.

For us, it was not quite that easy. We had several animals destined for the end consumer, but couldn't get appointments secured until this October, because the big processing plants got hit hard with COVID-19 outbreaks and so everyone got into a panic and filled up the butchers' agendas. Well, we can live with that inconvenience without too much concern, since we have lots of pasture available.

It has been a good growing year with all the rain we have had. Good, but challenging. Like last year, it was again tough to get enough sunny days in a row to put up hay and we had a late start due to the constant rain all through June and most of July. We now managed to get all but one small field up in good shape and are happy.

One of our neighbors reported that, when driving by, she has seen several times a doe with triplets. Apparently, the doe took her bunch to our calf shed every night. The other day, we were lucky enough to see the foursome ourselves. I wonder how many times triplets happen????

The latest impact of COVID-19 was announced earlier in August with the cancellation of Farmfair, following in line of other major cattle shows. Better safe than sorry - we haven't expected the news to be otherwise. However, the Annual Camrose Bull Congress was held before COVID-19 shut down everything else. Allen and Patti Nichols of Missin' Color Ranch had entered their coming 3-year old purebred polled Braunvieh bull MCR Elvis 1E, B13018 in the show scheduled for January 25th, 2020 and took home the "Grand Champion Mature Bull 2020" banner. CONGRATULATIONS to Patti and Allen Nichols.

The thing we miss most in our "new normal" lives is the way we interacted with people before. We are all so careful now when it comes to friendly handshakes, welcome hugs and keeping social distance. Smiling faces are hidden behind masks - how sad. But we will all get through it and "better" will come back.

Thinking positive is the answer. COVID-19 has taught us to make the best out of what we have. In our case, we are busy with projects that have been on the list for a while and we enjoy the fact that these are finally getting done. We hope you are all coping well too and we wish you good health.

Hang in there and take care.

Sincerely,

**Verena Peden**  
Secretary-Manager of the Alberta  
Braunvieh Association

We would like to offer our sincere condolences to George Ulrich on the passing of his wife Trudy on August 25th, 2020. They were married for over 60 years.

George was one of the first breeders of Braunvieh in Canada and a founding member of the Alberta Braunvieh Association.

Although George has dispersed his herd of Original Braunvieh, he remains a passionate advocate of the breed.

# BROWN SWISS Master Breeder

## THE MCCONNELL FAMILY

A journey of a thousand miles begins with a single step. For the McConnell family, the first step on their journey to becoming a Master Breeder was taken in 1971. Already operating a Holstein herd since 1966, Norval bought a Brown Swiss cow from his brother Calvin. There was one stipulation: "I'm not buying just any cow. I want a good one." Thus began the McConnell family's odyssey.

Slowly, Norval added more Brown Swiss to the herd, a little at a time. Back in those days, getting good Brown Swiss cows was a lot easier, as there were more breeders in the area. As their Brown Swiss herd grew, so did the second generation of McConnells, Shelly (Husband Stephan and 3 children), Wendy (Husband Paul and 2 children), Karla (1 child) and Troy. Troy and Jaclyn's children, Isla (8 years old), Meghan (3 Years old) and Luke 1 year old) are eager to get in and help. Norval and Isabel remember seeing their kids on the backs of these big gentle, docile giants out in the pasture. Isabel

remembers watching her husband walk along the fence line followed by quite a few of their happy cows. Norval "was going fencing," as the term was coined. Those beautiful traits still echo in the parent's voice when talking about Brown Swiss. "I would put them up against any breed, any day for how gentle they are."

Not all journeys are happy all the time. The McConnell's admit they did not know a lot about Brown Swiss. It took many years of listening, watching and absorbing knowledge to develop their top-notch cow skills today. The parents passed down these skills and personality traits to their kids and helpers at the barn. Over time, the family agreed on a core philosophy to find and develop balanced cows who can produce milk to pay the bills. When the family found a trait that was not as admirable in a cow, they bred to correct. For a short time, the family tried using type bulls as a strategy, but did not overly like the results. Going back to their tried and true method, the McConnells were always on the lookout for good bulls and a variety of them.

**"What is a McConnell cow? Big open frame – from chest to rump. Give all those internal body parts space to work. Big lungs to pump oxygen. Good udders are a must. Lots of dairy character/strength. "**

Another contender for Foundation Cow – Nor Bella Jetwind Poppy who's grandson turned out to be Nor Bella Wonderment Paul. There are seven daughters from Wonderment Paul and a few of them are high-end producers. One of those daughters is Nor Bella Paul Eve – EX-95-2E. Russia's gain since they purchased Wonderment Paul's brother a few year.

While on their journey towards Master Breeder, the McConnell family met many people along the way. All generations of McConnells are strong supporters of shows, both local and national. They love attending and going to the events to see great cows and better people. More importantly, the dairy shows bring eyes on the breed. Many local 4-H kids travel down the McConnell laneway to prepare the heifers for future shows and host meetings.

## BROWN SWISS MASTER BREEDER

"Norval recounts a story about a time when he was showing a cow and simply dropped the lead. The ring leader gasped and asked Norval if he was worried his cow would freak out and run. With a wink in his eye, Norval told him not worry. He had built such a relationship and trusted the cow so much she would simply walk along with Norval."

Dairy shows have proven to be a benefit for the McConnell family on the marketing side, and resulted in embryo and animal sales all over the world: from Canada, USA, Equator, Venezuela, Russia, Japan, UK, to Mexico. Their investments of time, money and shows helped create this opportunity for their family. While developing their marketing strategy, the McConnell stuck to a core principle: only flush Excellent cows who have proven themselves. The McConnells are very firm on that stance; "you are only going to get top of the line herd genetics from us."

Another way the McConnells showcase the Brown Swiss breed and get eyes on their herd is through milk tours, such as the tours sponsored by Huron and Bruce Counties. Nowadays, it is mostly Holstein farms on the tours in their area. Many Holstein farmers on the tour walk away surprised and amazed by the numbers Troy throws at them related to milk, fat, protein, and production. The family still remembers with

fondness many people who traveled down their laneway. Some favourite memories while hosting the AGM meetings held in Kindcardine in 2014 (and 20 years prior) and receiving many of the members in attendance. Here they shared their ideas, heard other points of view and remembered good people. Jessie Weir, the former secretary-manager, was invaluable to the Association and a good friend to the family. "She found a way to get things done," said Norval. "A tremendous help to the Association and a great person to boo".

### "Their biggest advice to young

**dairy people: "Save your money up. Don't buy an average cow. Wait and get yourself a really good cow."**

If you were to ask the McConnell family if they have a secret to share about their successful journey towards Master Breeder, the answer would be familiar to all dairy producers. What is surprising is who shared the secret. "You have to love the cows" came from Molly, the teenage niece of Troy and Jaclyn

and granddaughter of Norval and Isabel. Obviously, these are words which the McConnell family live by through their actions, their lifestyle, and outlook on life. They love their animals and keep them around as long as they naturally can. "They work hard for us and produce... I'll stick by them as long as I can."

The McConnells started with one Brown Swiss and then grew their herd. Along the way, they listened to people and peers, absorbed information, made mistakes, and ultimately learned a lot about Brown Swiss. Best of all, they learned to be Master Breeders.

## CLASSIFICATION SCHEDULE

## EARLY SEPTEMBER

**STATEMENT OF FINANCIAL POSITION**

As at December 31, 2019

Hello Association Member,

Normally, these pages are included in the Annual Report.

However, with COVID, the Annual Report and AGM were not done.

To promote full transparency and financial accountability, we are publishing these documents in this Newsletter.

Thank you,  
Donald Caron, Secretary Manager

---

**NOTICE TO READER**

---

On the basis of information provided by management, we have compiled the statement of financial position of Canadian Brown Swiss and Braunvieh Association as at December 31, 2019 and the statements of operations and changes in net assets for the year then ended.

We have not performed an audit or a review engagement in respect of these financial statements and we express no assurance thereon.

Readers are cautioned that these statements may not be appropriate for their purposes.

Guelph, Ontario  
February 10, 2020

Chartered Professional Accountants  
Licensed Public Accountants

**STATEMENT OF FINANCIAL POSITION**

As at December 31, 2019

	2019	2018
<b>ASSETS</b>		
<b>CURRENT</b>		
Cash	\$ 34,460	\$ 21,007

The Covid-19 pandemic resulted in some degree of service interruption and modification for both milk recording and type classification starting March 2020. This reality affected the volume of data available for genetic evaluations, which reduced the number of newly proven sires this round, and also increased the interval between test days and classifications for some cows in herds across the country. As a consequence of these unprecedented circumstances, Lactanet Canada has temporarily relaxed the criteria for affected cows to receive official production indexes and therefore official LPI and Pro\$ values.

### **"Falco" Achieves Top 10 LPI Status Among Brown Swiss Sires**

The Swiss-bred sire, Falco (Falk x Vigor) attracts attention this round as he penetrates the Top 10 LPI list in #8 position and also takes #6 Fat. Huray maintains his elite status as the breed leader for LPI, Fat and Protein while also ranking #2 Milk. The rest of the Top 5 LPI list experiences minor reranking as Lime Rock Seasidebloom climbs a notch to #2 LPI (#1 Milk, #7 Fat, #2 Protein) as does Lime Rock Toledo, now at #3 LPI (#3 Fat, tied #5 Protein). Shiloh Brookings Cadence ET loses some ground, now at #4 LPI (tied #5 Protein) while Payssli ET climbs the ranks from #8 to #5 LPI (#9 Milk, tied #9 Protein). Another noteworthy newly proven sire this round is Brown Heaven Winning Formula ET (Jongleur x Glenn), who makes his debut tied at #1 Conformation with +12 along with below-average production yields (#88 LPI).

For cows, the top four LPI cows remain unchanged with Gubelman Juhus Crystal at the helm at #1 GLPI while also taking #2 position for Fat and Protein. As in April, she is followed by Gubelman Biver Kendra (#2 GLPI), Nor Bella Paul Eve (#3 GLPI, #1 Fat, tied #2 Conformation), and Gubelman Biver Diana at #4 GLPI (#3 Fat). Sigview Vasa Bacardi (dam is Top Swiss Prossli Brad) moves up the list to grab the #5 GLPI spot (#4 Fat, tied #7 Protein). The highest newly indexed cow this round is Brown Heaven Vassli Funny (dam is Brown Heaven Biver French Fries ET), who makes an impressive debut at #6 GLPI (#7 Fat, tied #10 Protein).

## BROWN SWISS DOORS, ALWAYS OPEN

### VISIT BROWN SWISS COWS IN FORT LANGLEY, BC

Stop in at **Eagle Acres Dairy** and meet the Anderson family and their beautiful, educational enterprise. This family have been welcoming people from all over the globe to visit their dairy farm since 1999. Schools, groups and families have all come to enjoy a real working dairy farm in action and learn about (or help) with the daily chores. A great place to see all dairy breeds (yeah-Brown Swiss!) from their Educate-A-Kid herd.

They are a local, sustainable and passionate Canadian family farm. They enjoy what they do and always like to share their day with visitors!

For those who may not travel to Fort Langley – visit this family on their website: [www.eagleacres.ca](http://www.eagleacres.ca) to learn their story. Be sure to visit all the wonderfully informative pages on this website. A personal favorite of mine is the 'Did You Know' page – be sure to read the whole page.

Thank you to the Anderson family for being great dairy advocates and members of the Canadian Brown Swiss and Braunvieh Association. A special thank you for having Brown Swiss cows in your barn for your visitors to see.

## BROWN SWISS DOORS, ALWAYS OPEN

### VISIT BROWN SWISS COWS IN ST-GÉDÉON, QC

Stop in at **Fromagerie Médard** and look follow the overhead pipelines to Ferme Domaine de la Rivière. They use only the milk from their herd of Brown Swiss cows for cheese production. This fromagerie is a story 6 generations in the making and owes its name to Médard, son of Élise Boulianne and Eucher Côté, a veritable legend in the agricultural history of the region.

The story begins in the 19th century when Élise takes possession of 100 acres of public land in Saint-Gédéon, Lac-Saint-Jean, given by the authorities who were able to give land to mothers and fathers of twelve or more living children. The objective: clear the forest and develop the region. The widow Boulianne and her eldest son led the way.

Norman Côté is the fifth generation of the Côté family and current owner of the fromagerie. Normand Côté and Madeleine Boivin own the farm since 1986. His daughter, Rose-Alice, the cheesemaker, is part of the sixth generation to commit itself to the family enterprise. Since 2017, important investments went to the stall free cattle barn that includes a huge hay dryer. From April until October, the cows go out to pasture while during the winter they are fed dry hay.

For those who may not travel to St. Gédéon – visit this family on their website: [www.fromageriemedard.ca](http://www.fromageriemedard.ca) and learn more about their story.

Thank you to la famille Médard for being great dairy advocates, excellent cheese makers and members of the Canadian Brown Swiss and Braunvieh Association. A special thank you for your hospitality at the 2019 AGM.

## SWISS GENETICS BREEDING VALUE HIGHLIGHTS

### Original Braunvieh

August 2020

ARCAS first OB to pass 1400 GZW!

#### PROVEN BULLS:

LORDAN (Rino x Lukas x Gral) is adding many daughters this time too and now with 604 daughters in his proof he confirms to be a breed's leader, top components and nice type profile are making him a big star of our Original Braunvieh line up!

LORDAN URINA

### Brown Swiss

August 2020

The Summer Proof has been a consistent proof for our best top players of the Brown Swiss Breed, bulls like BLOOMING, BIVER, ANIBAL, PASSAT and FACT are adding reliability and are always on the top of the sire's ranking. SIMBABOY is on the top of the list and excels for important traits like components, daughter fertility and longevity. The April released bulls GRISCHA STAR and HAEGAR are improving the proof and they will be very popular during the next breeding season; the different bloodline is also giving to these two very complete and balanced bulls more appeal.

#### PROVEN SIRES:

With our icons we have a very good group of proven sires, CALVIN, JONGLEUR, SIMBABOY and several of his sons, NELLO is joining the stars to offer more bloodlines and more variability for all important traits.

NELLO LISSI

#### OPTIMIS (GENOMIC BULLS): NEW RELEASES

JOHANN (Bender x Nesta x Jetway) has a nice pedigree with three of the best type bulls of all times! Consequently it's normal that Johann is our best BENDER son for all conformation traits. Allorund bull and he is BB and A2A2.

## MESSAGES FROM JANINE &amp; DONALD

Greetings from the Registrar's office,

I hope you are all doing well on the farm and enjoying a bit of cooler weather (compared to the rest of the summer). The 2020-year has been a very different kind of year for all of us! Back in March, at the onset of Covid-19, the registrar's office began working remotely from home. Currently, with some restrictions lifted, the registrar's office is splitting the workdays between home and the office at Holstein Canada. Thank you for your patience as we all get used to this 'new' normal of covid life.

In regards to Registrar work this year, so far there are just shy of 1000 head of cattle registered. Another interesting tidbit is that we have added 16 new members in 5 different provinces so far this year! It's good to see the breed growing despite the difficult circumstances producers have faced this year!

As you know, Holstein Canada had to make the difficult decision in March to postpone classification, proAction, and other herd visits. Since June when the regulations relaxed, the classifiers have now been back in all provinces. If you think we missed your farm, feel free to reach out to us by email to [classification@holstein.ca](mailto:classification@holstein.ca) or call 1-855-756-8300 ext. 264 or 290.

As always, if you have any questions or concerns, please reach out to me!

Have a good harvest season!

Janine Eygenraam,  
Registrar

Hello from the Secretary Manager,

This pandemic truly altered the way we socially connect. Our social circles tightened and big gatherings were a no-no. The lack of dairy shows, the Royal being canceled and more importantly, not being able to have our AGM....these are social circles I miss to connect with dairy producers and Association members.

One connection I did enjoy was a great time in Kincardine during a hot summer day to interview our latest Master Breeder. Meet the McConnell family in this Newsletter for my interview with them. A socially distanced day where I met three generations of this farm family to talk about family, about cows and people.

This Newsletter is a little bit different, in light of there not being dairy shows to highlight. In addition, provincial Branches were not able to hold picnic events and therefore have little news to share. The pandemic gave me a chance to try new things. Please enjoy the 'Brown Swiss Doors, Always Open'. My hope is this provides a connection for fellow members to the Association.

On behalf of the Board, and a President who is fixing a damaged grain silo, we hope to see each other soon. Fingers crossed for the upcoming AGMs in Quebec and Ontario.

Stay healthy, physically, mentally and socially.

Donald Caron,  
Secretary Manager
